To Prof. Karanam Umamaheshwar Rao
Director of
National Institute of Technology Karnataka, Surathkal

In Nantes, October 6th, 2020

Object: Welcome to the Heritage Network

Dear Prof. Karanam Umamaheshwar Rao,

The Heritage Network is an Indo-European network of more than twenty leading technical Higher Education Institutions (HEI) jointly engaged in collaborations through their research and academic activities addressing common priorities of national interest and well-being.

The Heritage Network aims at achieving these goals by identifying partner institutions willing to undertake joint research projects, academic and research exchanges, and industry partnerships between India and Europe. Our Network proposes a unique platform and framework for sharing expertise and best practices and foster high level educational programmes.

The network is managed and administered by the Heritage Network General Assembly (GA) - a governing body of elected representatives of the partner institutions.

Your institution has shown its deep interest in being a member of the Heritage Network. We are happy and honoured to confirm that the National Institute of Technology Karnataka, Surathkal, introduced to the Network by Prof. Panduranga Vittal Koppal, has been admitted as a member of the Heritage Network upon the online vote of the members of the Heritage Network on October 4th 2020.

The Heritage Network members are extremely satisfied to count on your institution as a new member.

Prof. Fouad Bennis
President of the Heritage Network
